

# ISA VISWA PRAJNANA TRUST

“Give to the world  
what you desire from the world.”

Swami Isa

Born from Swami Isa's conviction that humanity is capable of achieving total happiness, the Isa Viswa Prajnana Trust was founded in 2000 with the vision of empowering every human being to attain Total Consciousness by living a life of harmony and balance. What you know changes how you act, and therefore enhancing human knowledge is the most significant way to create the changes we all want in the world.

## **Vision**

Empowering every human being to attain Total Consciousness.

## **Mission**

Implementing Swami Isa's holistic, balanced approaches to education, science and society.

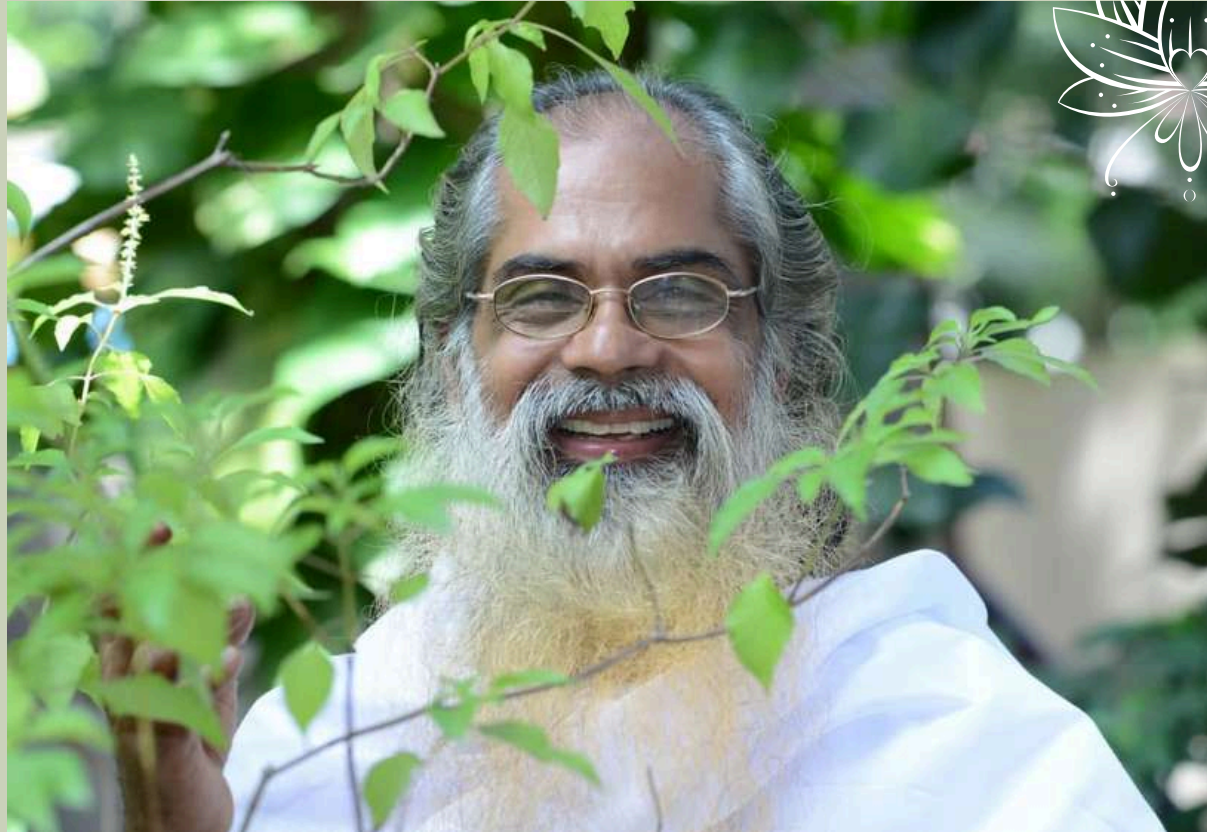

# The Isa Viswa Prajnana Trust

Founded in 2000 by Swami Isa in Thiruvananthapuram, India, the Isa Viswa Prajnana Trust is a registered charitable organisation holding Consultative Status to the United Nations Economic and Social Council.

Swami Isa's new approach to education—one which upholds the connection of all life rather than separation—empowers each human being to therefore be a master of their own future.

We provide aid and comfort to the suffering, and at the same time, conduct programs aiming to resolve the sources of suffering. We run a school, work in slums, spread environmental awareness, conduct research on renewable energy, organize a global parliament and many other projects. The Universal University is Swami Isa's master plan: a harmonious environment of innovation, cultural integration, life-long learning and self-development.

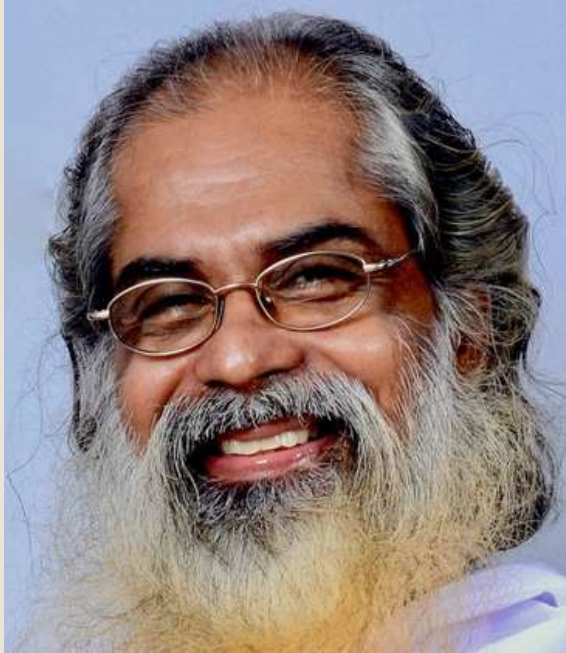

“ Smile like a child. Think like a saint.”

Swami Isa

# His Holiness Jagadguru Swami Isa

His Holiness Jagadguru Swami Isa is one of the foremost spiritual leaders of our time, who spreads a message of purity, love, positive energy and humane action.

Swami Isa's system of 'Education for Total Consciousness' and his unifying 'I-Theory' have garnered worldwide attention for their practical approach towards integrating the outer and inner sciences.

Swami Isa is the Founder of the IVPT, the Isalayam Ashram, the Isa Viswa Vidyalayam school, the Global Energy Parliament and the GEP Research Centre. These institutions flourish the world over with the assistance of inspired individuals.

Swami Isa regularly speaks at conferences, public events and gatherings to share his teachings.

“When you have the thought that the outer world and your own self are made of the same Energy and the same Consciousness, you will never harm others. Intellects vibrating with this knowledge will create sustainable peace.”

Swami Isa

# The Isa Viswa Vidyalayam

A bold and successful educational experiment, the Isa Viswa Vidyalayam is a school that moulds 'humane' beings. The Isa Viswa Vidyalayam was established in 1998 in Thiruvananthapuram as a pilot school for Swami Isa's 'Education for Total Consciousness.' The Vidyalayam enrolls students from pre-kindergarten to high school.

We are proud to have received recognition for our educational system, including an award celebrating our innovative philosophy. We love to see our former students growing into loving, confident and responsible members of society.

Our children learn about themselves and the world in an experiential, integrated and holistic way. Textbook lessons are transformed into wisdom through our focus on 'total education,' which connects each topic to ourselves and the wider world. The school is always vibrant with the sounds of creative learning!

We believe that education is a human right and there should be no barrier for learning-- economic or otherwise. All children are welcome at our school, regardless of their background.

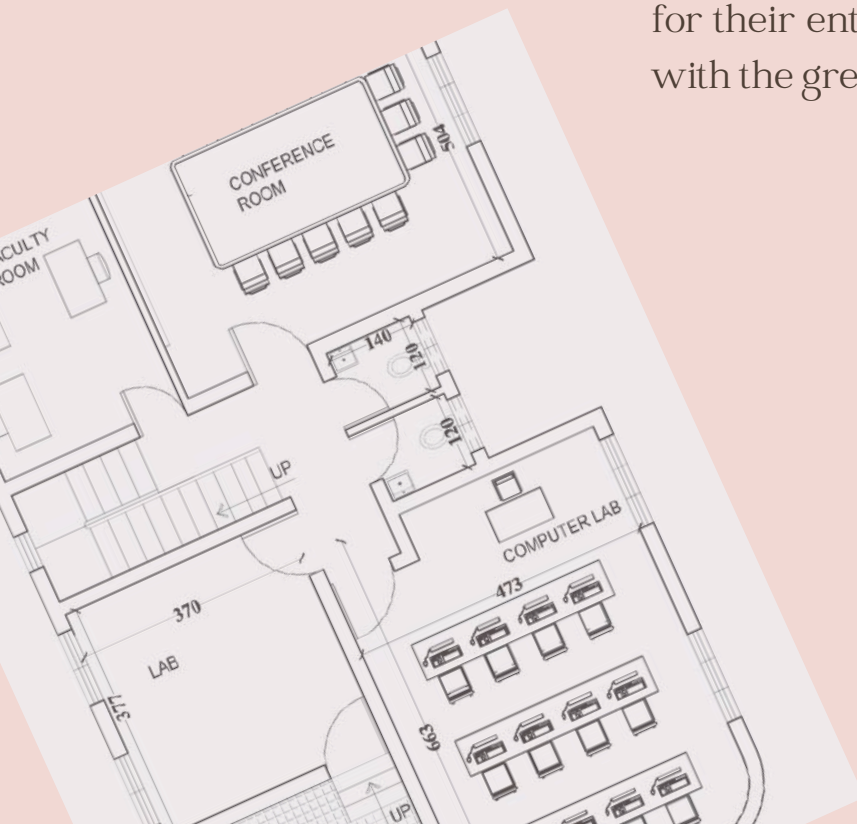

## Support the Isa Viswa Vidyalayam

Our buildings are old, and need to be remodeled, to provide better facilities for learning, including an upgraded computer lab, science labs, library, solar energy and even residential spaces. Plans have been drawn up, and we are seeking corporate sponsors to support this project.

You can also sponsor the education of a student for one year or for their entire education from LKG to graduation. Change a life with the great gift of Education for Total Consciousness!

## Relieving Suffering

Reducing suffering through the provision of basic necessities like food, clothing, shelter, healthcare and energy is also a big part of our social work. We work in several areas to provide humanitarian aid, including:

- The Mobile Knowledge Unit - bringing healthcare and skill development to slums
- Healthcare - providing medical care, medical camps and integrated healthcare
- Housing - rehabilitating needy persons
- Free food - daily annadhanam and feasts on special events
- Free clothing - clothing those in need
- Disaster relief - relief work, food, clothing, and medicine during floods, landslides, and other disasters
- Free yoga - providing relaxation and strengthening to needy communities
- and much more.

# Living in Balance With Nature

We want every human to know how to live in balance with nature. We provide education, research as well as on-the-ground activities that contribute to healthier lives and environment. Here is some of our work:

- Fruit Tree Distribution - providing fruit tree saplings to homes
- Organic Cultivation - sharing knowledge and seeds to cultivate home organic gardens
- Plastic Education - workshops on reducing plastic waste
- Cleaning Drives - keeping our streets clean

We have also conducted detailed scientific research and seek partners to implement the following large-scale projects:

- Sustainable State Model - Based on detailed research of land use and Swami Isa's I-Theory, our research centre created a model for a sustainable use of Kerala State's land.
- Roadside Fruit Tree Planting
- Wooden Building Promotion
- Rural Electrification through Renewable Energy

# The Global Energy Parliament

The Global Energy Parliament (GEP) is an international body of volunteers striving to ensure a self-sustaining, peaceful existence for human beings and the world we live in. The GEP provides scientific recommendations, strategies and solutions through parliamentary sessions, research projects, education and community activities.

Since 2010, the GEP has held parliamentary sessions in a different country each year on current global issues like Energy, Health, Economics, Peace, Governance, Habitat, Science, Education, and Digitalization. In 2023, the Raj Bhavan of West Bengal established a GEP Chair.

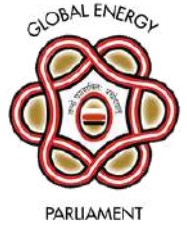

Our Acts and Resolutions are sent annually to all governments around the world, many of whom have actively participated in past sessions.

We welcome sponsors for GEP's events and local activities.

Inauguration of the 7th GEP on Habitat Harmony at the residence of the Prime Minister of Sri Lanka, Colombo, Dec 11, 2016. From right to left :  
Ven. Banagala Upatissa Nayaka Thero (President, Mahabodhi Society of Sri Lanka),  
His Holiness Swami Isa (Founder, IVPT),  
the Hon. Prime Minister of Sri Lanka Ranil Wickremesinghe,  
Ven. Ittepane Dhammalankara Maha Nayaka Thero (Buddhist Leader, Sri Lanka),  
His Excellency Sir James Mancham (Founding President of the Republic of Seychelles),  
Kirtee Shah (Architect)

# The GEP Research Centre

The GEP's foundation is Swami Isa's I-Theory, the science of energy. This theory of everything is proving how it can solve many of science's greatest mysteries--and at the same time, provide useful innovations for society.

The GEP's Research Centre runs projects for innovations in renewable energy, education, law and health, in addition to theoretical research on quantum physics. Holding a patent with France's Commission for Atomic Energy and Alternative Energy (CEA), GEPRC is developing a renewable energy device which will efficiently produce electricity from sound. With this device, we will be able to electrify rural areas that are off-grid in a cost-effective and environmentally safe way.

We welcome research partners for these important projects.

## Life for Total Consciousness

Life for Total Consciousness is a yoga-meditation technique developed by Swami Isa, which includes mantras, movement, visualization, prayer and mindfulness.

This lifestyle changes step by step the destructive patterns of behavior, beliefs and emotions. Its empowering tools help us to tune our human system, maintain it in balance, and improve everyday life. Through the daily practice of Life for Total Consciousness, we reach more inner peace, happiness, health, harmony and love towards ourselves and others.

Isalayam Ashram holds regular yoga classes, and as a Registered Yoga School we conduct Yoga Teacher Training courses annually. Additionally, we offer free classes to the community such as in slum areas.

# Universal University

## The Universe–City

Aim: To empower new generations of “humane” beings

The Universal University is the Isa Viswa Prajnana Trust’s master project, a universal city implementing all of our educational, scientific and social approaches in a harmonious environment.

The University will be a world-class institution providing holistic learning from birth to death. Living in harmony with nature and financial self-sustainability through production are two key focus areas. Education will become the centre of life, with abundant opportunities to explore new knowledge and refine ourselves.
